EXPERIMENT-08

Create storyboards to represent the user flow for a mobile app (e.g., food delivery app) using Balsamiq

240701194

ILAKKIYA P

AIM:

The aim is to create storyboards representing the user flow for a mobile app, such as a food delivery app, using Balsamiq.

PROCEDURE:

Tool Link: https://balsamiq.com/

Step 1: Define the User Flow

1. **Identify Key Screens**:
   - List the main screens your app will have (e.g., Home, Menu, Cart, Checkout, Order Confirmation).
2. **Map the User Journey**:
   - Understand the typical user journey through these screens (e.g., browsing menu, adding items to cart, checking out).

Step 2: Create Storyboards Using Balsamiq

1. **Install Balsamiq**:

○ Download and install Balsamiq from the https://balsamiq.com/ website.

2. **Create a New Project**:
   ○ Open Balsamiq and create a new project.
3. **Add Wireframe Screens**:
   ○ Use the “+” button to add new wireframe screens for each key screen in your app.
4. **Design Each Screen**:
   ○ Use Balsamiq's components to design the UI for each screen.

○ Include basic elements like buttons, text fields, and images. 5.

Organize the Flow:

○ Arrange the screens in the order users will navigate through them.

○ Connect the screens with arrows to represent user actions.

Example Screens for Food Delivery App

1. **Home Screen**:
   ○ Search bar for finding restaurants
   ○ Categories for different cuisines
2. **Menu Screen**:
   ○ List of food items with images, names, and prices
   ○ Add to Cart buttons
3. **Cart Screen**:
   ○ Items added to the cart with quantity and total price
   ○ Checkout button
4. **Checkout Screen**:
   ○ Delivery address form
   ○ Payment options
   ○ Place Order button

5. **Order Confirmation Screen**:
    - Order summary
    - Estimated delivery time

Example Output

Here's how the wireframes might look:

Home Screen

- **Search Bar**: Allows users to search for restaurants.
- **Categories**: Buttons for different cuisines (e.g., Italian, Chinese).

Menu Screen

- **Food Items List**: Displays food items with images, names, and prices.
- **Add to Cart**: Button to add items to the cart.

Cart Screen

- **Items Added**: Lists items added to the cart with quantity and prices.
- **Checkout Button**: Proceed to checkout.

Checkout Screen

- **Delivery Address Form**: Users enter their delivery address. ●

Payment Options: Choose between different payment methods. ●

Place Order Button: Finalize the order.

Order Confirmation Screen

- **Order Summary**: Shows the order details.
- **Estimated Delivery Time**: Provides an estimated delivery time.
